

About us

The Friedrich-Ebert-Stiftung (FES) is the oldest political foundation in Germany with a rich tradition in social democracy dating back to its foundation in 1925. The foundation owes its formation and its mission to the political legacy of its namesake Friedrich Ebert, the first democratically elected German President.

The work of our political foundation focuses on the core ideas and values of social democracy – freedom, justice and solidarity. This connects us to social democracy and free trade unions. As a non-profit institution, we organise our work autonomously and independently.

Our goals

We promote

- a free society, based on the values of solidarity, which offers all its citizens the same opportunities to participate on political, economic, social and cultural levels, regardless of their origin, sex or religion
- a lively and strong democracy; sustainable economic growth with decent work for all
- a welfare state that provides more education and improved healthcare, but at the same time combats poverty and provides protection against the challenges that life throws at citizens
- a country that is responsible for peace and social progress in Europe and in the world.

What we do

We support and strengthen social democracy in particular by means of:

- **Political educational work** to strengthen the civil society. Our political education programs in Germany motivate, enable, inform and qualify citizens to successfully engage in political, trade union and civil spheres. We improve citizens' participation in social discussions and decision-making processes.
- **Think tanks** to develop strategies on the core issues of economic, social and educational policies as well as on key issues that advance democracy. At the crossroads where think tanks, academia and political practitioners meet, we create a public discourse for a just and sustainable economic and social order on a national, European and worldwide level.
- **International cooperation** facilitated by our network of offices in more than 100 countries to support a policy for peaceful cooperation and human rights, promote the establishment and consolidation of democratic, social and constitutional structures and are pioneers for free trade unions and a strong civil society. We are actively involved in promoting a social, democratic and competitive Europe in the European integration process.

- **Support for talented young people** with scholarship programs, in particular for students and doctoral candidates from low-income families or with a migrant background. This is our contribution to increasing educational democracy.
- **The collective memory of social democracy** to keep the historical roots of social democracy and the trade unions alive. Our archive, library, and contemporary history projects provide support for sociopolitical and historical research.
